

# PRESIDENT CALLS FOR MORE TAX COLLECTORS AT IRS

(Mr. GIBBONS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GIBBONS. Mr. Speaker, it astounds me and most of my fellow Nevadans as well when we hear that the Clinton-Gore administration intends to veto the Treasury-Postal appropriations bill, a bill which this Chamber passed just last week; veto it simply because the bill does not give enough money to the IRS.

The IRS is demanding \$224 million more than their current \$8.6 billion budget to pay for 5,000 more tax collectors.

Mr. Speaker, what the American people need is not more tax collectors; what the American people need is a tax break. The overwhelming tax burden currently placed on the American families is simply unconscionable and by vetoing the Treasury-Postal bill President Clinton also vetoes the repeal of the telephone excise tax, a tax passed over 100 years ago to fund the Spanish American war.

Not one single Nevadan has ever asked me to fight for more IRS tax collectors. Americans do not want the bloated bureaucracy of the IRS to expand; they want and deserve a tax break.

# AMERICA SHOULD BE STRONG PARTICIPANT IN UNITED NATIONS

(Mr. McDERMOTT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. McDERMOTT. Mr. Speaker, I come before the House today to talk for 1 minute about today being United Nations Day. It is also the beginning of the decade of peace in the world. They are trying to begin to emphasize how to bring peace in a variety of different places across the globe.

It is important for us in this body to recognize the important part we play, not only by our contributions to the U.N. in which we have lagged seriously behind, but in our support for what goes on.

The United States has, from time to time, supported the U.N. when it has been in our interests and at other times we walk away from them. But as we look across the globe with all of the places, Sierra Leone or Liberia or Somalia, when we look, we see always that the U.N. sometimes has our support and sometimes does not.

Now, if we are going to be the leader of the world, we certainly are economically, but if we are politically going to be leaders of the world, we must participate in the United Nations in a very strong way. That means paying our dues.

# GENERICS ARE CRITICAL IN ADDRESSING HEALTH CARE COST ESCALATION

(Mr. CALVERT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CALVERT. Mr. Speaker, I do not have to tell Members of this body that health care inflation is out of control. Our constituents are telling us that every day.

They are feeling the effects of medical costs that increased over 10 percent in 1999 alone. The latest projections are that health care inflation will outpace overall inflation for many years to come. This poses a significant threat to American families, government programs, and employers who are shouldering a growing burden of the U.S. health care costs.

One solution to this problem is to increase the availability of generic drugs. Generic drugs deliver the same health results as brand drugs, but generics cost 70 percent less on average than the brands they replace. The savings are significant.

A new report released by Sanford University in Alabama shows that for every 1 percent increase in generic drug utilization, consumers, taxpayers and employers save over \$1 billion in prescription drug costs. It is clear that the greater use of generic drugs must be a part of the plan to cure the Nation's ailing health care system.

# GENERIC DRUGS

(Mr. KENNEDY of Rhode Island asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KENNEDY of Rhode Island. Mr. Speaker, most Americans know that the cost of pharmaceutical drugs is at a record high. Prescription drug costs rose 85 percent between 1993 and 1998, and prescription drugs represent the highest out-of-pocket expense for three out of four senior citizens.

Generic drugs are FDA approved to be safe and to be secure, but they cost 70 percent less than brand name drugs. The fact of the matter is, there are loopholes in today's laws that block entry to these affordable generic drugs.

This Congress needs to reform the Hatch-Waxman Act to improve competition and make our markets more accessible and fair. Let us end the brand drug monopoly that stifles competition, restricts our consumers' choice, and raises consumer drug prices.

# CHILDHOOD CANCER AWARENESS MONTH

(Mr. HEFLEY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HEFLEY. Mr. Speaker, the month of September is Childhood Can-

cer Awareness Month, and I am proud to stand here wearing my gold ribbon of hope and voice my support for the children and families who are affected by this disease.

Cancer causes more deaths during childhood than any other disease. This year an estimated 12,400 children will be diagnosed with cancer, and 2,300 will die. Though we celebrate with the survivors and their families, we cannot forget the children who will, unfortunately, succumb.

That is why I am preparing to introduce legislation on behalf of these children and their families that will support them through the hospice care. Later this month, the gentleman from Virginia (Mr. MORAN) and I will host a conference for Members and staff in order to address the challenges concerning hospice care for children and share our ideas and examine questions regarding this serious topic.

I hope my colleagues will support this legislation, the conference, and Childhood Cancer Awareness Month.

# GENERIC DRUGS PROVIDE AFFORDABLE HEALTH CARE ALTERNATIVE

(Mr. GOODE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GOODE. Mr. Speaker, today over 40 million Americans lack adequate health insurance coverage and millions more are struggling to cover their health care bills. Unfortunately, seniors and children are among the groups most vulnerable in American society. Finding solutions to this health care crisis has to be at the top of our agenda.

Fortunately, there is help. Right now, generic drug companies are producing lifesaving and life-improving medicines that cost substantially less than brand name drugs. In fact, generic drugs provide one of the best values in the United States health care system. The substantial savings provided by generic drugs means more Americans can buy the medicines they need. It also means that through greater use of generic drugs, public health programs, like Medicaid and Medicare, can manage to help more Americans.

Generic drugs should be a key part of any prescription drug program approved by this Congress.

# BRAND NAME AND GENERIC DRUGS ARE INTERCHANGEABLE

(Mr. PALLONE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PALLONE. Mr. Speaker, does anyone in the Chamber know the difference between Zantac and Ranitidine Hydrochloride? Here is the answer: Price. Zantac is the brand name of a popular medication to treat ulcers. Ranitidine Hydrochloride is the generic name of the exact same drug.
